

My laptop needed to be serviced, and I am fairly new to the Glendale area. One of my friends from work referred me to NetProAZ to have them check it out. I called them with the details and they scheduled me an appointment right away. I said they could keep it as long as they needed to. He felt the issues I had explained to him previously, usually can be resolved in a day or two, but would advise me after a thorough check up. Picking up my laptop was a surprise and beyond the call of duty. However, My laptop was picked up, he called and updated me on his progress and findings that day, and My laptop was delivered at my front door before 4:00 P.M. the next day. I was given a written report on issues he'd found and the steps taken to resolve them. My laptop is running so smoothly now It's possibly quicker than it was brand new. Great Company, Excellent Customer Care and the Knowledge & Skills for a successful future.
