PC REPAIR TESTIMONIAL

I had Todd do some computer repair work for me in the past and then for some unbeknownst reason I was unable to find pictures recently-they appeared to be all erased and Todd was able to find/restore the majority of them---I was so very pleased. He went above and beyond just being a "regular" repair guy. Very neat and efficient, reasonable. I would highly recommend him/NetProAZ to anyone if you want to get the best bang for your buck!
