PC REPAIR TESTIMONIAL

When I called Todd at NetProAZ, he was more than willing to help me fix my computer. He was kind, funny, and polite. He came to my house in a matter of hours, fixed my computer and had it back to me in two days. Not only is he extremely knowledgeable, he is helpful and gave me pointers on how to keep my computer from breaking again and he did it all for a GREAT price. I couldn't have been happier and will be calling him again as soon as my computer is in need of repair.

Thanks Todd!!!

From: RoseAnn in Scottsdale, AZ.
